

UPDATE

In an overabundance of caution, we are transitioning to a closed door policy. Telemedicine will be available for pets examined in the last 12 months with minor problems. If your pet needs to be seen by the doctor, clients should make an appointment. When you arrive at your appointed time, please wait in your car and one of our staff will come to you. We will transport your animal into the clinic and bring your pet back when the services are completed. If you are bringing a cat, it **MUST** be in a pet carrier. Please bear with us as these changes are as new to us as they are to you.

Dr. Ware Sullivan
